

3D Printing Parts

Features:

Rapid prototype

Higher quality and lower cost

Create almost any shape of objects

Specification:

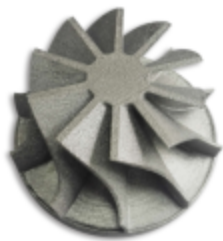

Maximum Size	1500*1500*1000mm
Color	White, Black, Transparent, or according to Pantone No.
Tolerance	±0.05mm
Surface Finishing	Glossy, Semi-gloss, Matte, Textured finish, As-machined
Additives	UV absorbers, Flame retardants, Plasticizers, Colorants, Carbon fibers, Glass fibers
Logo	Debossed, Embossed, Printing
Drawing Format	2D Drawing: PDF/JPG/PNG 3D Drawing: STEP/STP/IGS/DXF/DWG
Product Volume	50,000,000 Pcs/Month

Types of 3D Printing Parts:

Plastic 3D Printing Parts

We can produce plastic 3D printing parts of a variety of materials, support a variety of surface treatments, with higher precision, and can be widely used in machinery, food, chemical and mining industries.

Metal 3D Printing Parts

The metal 3D printing parts we produce can be combined with other manufacturing technologies, and can also be used to manufacture prototypes and finished products. Widely used in aerospace, mechanical engineering, specific tools and other industries.

Custom Process:

			
1	2	3	4
2D & 3D Drawing	Get a Quote	Drawing Analysis	Process
JGP, STP PDF, STEP DWG, IGS DXF, IGES	Manual quotation within 24 hours	Our engineering experts will analysis your drawing and choose suitable process for production	Injection Molding, Compression Molding, Casting Molding, CNC Machining, Metal Stamping, 3D Printing
			
5	6	7	8
Build a Prototype	Review	Mass Production	Delivery
Quick prototype exactly same as drawings or samples	Review & approve samples for mass production	Automatic production line accelerates production and guarantees quality	We can provide more options for additional assembly and logistics, and ensure a fast delivery within 5 working days

Zhongde has introduced many advanced equipment of 3D printing, which can be used to print plastic & metal parts, realize one-time printing and reduce production costs. We provide customization of personalized graphics in multiple fields according to customers' requirements.

Custom Plastic & Rubber & Metal Parts

One-Stop Service from Rapid Prototype to Mass Production and Parts Assembly

Contact Us:

Zhongde is committed to providing customers with high-quality and low-cost customized products. Up to now, we have customized 1 million parts and molds for customers from more than 50 countries around the world. We have introduced more than 500 sets machines to produce plastic components and parts, so that we can offer on-demand production according to customers' requirements. If you have customization requirements, please provide the corresponding 2D or 3D design drawings, and we will provide a quick quotation within 24 hours.

Headquarter

Zhongde (Beijing) Machinery Equipment Co., Ltd.

Add: C-708, No.9 Shangdi 3rd St., Haidian District, Beijing, China 100085

Email: sales@zdcpu.com
