

Assembly Parts

Features:

Rapid prototype

Higher quality and lower cost

Create almost any shape of objects

Specification:

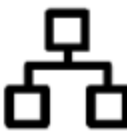

| | |
|-------------------|--------------------------------------------------------------------------------------|
| Maximum Size | 1500*1500*1000mm |
| Color | White, Black, Transparent, or according to Pantone No. |
| Tolerance | ±0.05mm |
| Surface Finishing | Glossy, Semi-gloss, Matte, Textured finish, As-machined |
| Additives | UV absorbers, Flame retardants, Plasticizers, Colorants, Carbon fibers, Glass fibers |
| Logo | Debossed, Embossed, Printing |
| Drawing Format | 2D Drawing: PDF/JPG/PNG 3D Drawing: STEP/STP/IGS/DXF/DWG |
| Product Volume | 50,000,000 PCS/Month |

Types of Assemble Parts:

The following are some of the assembled parts we have made. They are only for displaying our products range and shape. but not for sale. Upload drawings right now to get a manual quotation within 24 hours.

Custom Process:

| | | | |
|------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
|  |  |  |  |
| 1 | 2 | 3 | 4 |
| 2D & 3D Drawing | Get a Quote | Drawing Analysis | Process |
| JGP, STP PDF, STEP DWG, IGS DXF, IGES | Manual quotation within 24 hours | Our engineering experts will analysis your drawing and choose suitable process for production | Injection Molding, Compression Molding, Casting Molding, CNC Machining, Metal Stamping, 3D Printing |
|  |  |  |  |
| 5 | 6 | 7 | 8 |
| Build a Prototype | Review | Mass Production | Delivery |
| Quick prototype exactly same as drawings or samples | Review & approve samples for mass production | Automatic production line accelerates production and guarantees quality | We can provide more options for additional assembly and logistics, and ensure a fast delivery within 5 working days |

Thanks to a mature production line and a wide range of production, Zhongde can not only provide single-piece products, but also provide kits and assembly services. We will provide manual assembly and machine assembly services according to product types, or a combination of the two, to improve production efficiency. Our assembly service not only saves time and cost for you, but also saves packaging space and freight.

Custom Plastic & Rubber & Metal Parts

One-Stop Service from Rapid Prototype to Mass Production and Parts Assembly

Contact Us:

Zhongde is committed to providing customers with high-quality and low-cost customized products. Up to now, we have customized 1 million parts and molds for customers from more than 50 countries around the world. We have introduced more than 500 sets machines to produce plastic components and parts, so that we can offer on-demand production according to customers' requirements. If you have customization requirements, please provide the corresponding 2D or 3D design drawings, and we will provide a quick quotation within 24 hours.

Headquarter

Zhongde (Beijing) Machinery Equipment Co., Ltd.

Add: C-708, No.9 Shangdi 3rd St., Haidian District, Beijing, China 100085
