

Custom Plastic Parts

Features:

Cost-effective and high quality

Accept small order

Large volume production

Specification:

Maximum Size	1500*1500*1000mm
Color	White, Black, Transparent, or according to Pantone No.
Tolerance	$\pm 0.05\text{mm}$
Surface Finishing	Glossy, Semi-gloss, Matte, Textured finish, As-machined
Additives	UV absorbers, Flame retardants, Plasticizers, Colorants, Carbon fibers, Glass fibers
Logo	Debossed, Embossed, Printing
Drawing Format	2D Drawing: PDF/JPG/PNG 3D Drawing: STEP/STP/IGS/DXF/DWG
Product Volume	50,000,000 Pcs/Month

Types of Custom Plastic Parts:

Plastic Parts

High volume plastic parts manufacturing. Materials include ABS, Nylon, pp, pom, ptfe, pvc, pe, hdpe, uhmwpe, etc.

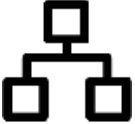

Plastic Bonding Metal Parts

Plastic bonding metal parts are injection molded parts that combine metal and plastic to improve product performance.

Custom Process:

			
1	2	3	4
2D & 3D Drawing	Get a Quote	Drawing Analysis	Process
JGP, STP PDF, STEP DWG, IGS DXF, IGES	Manual quotation within 24 hours	Our engineering experts will analysis your drawing and choose suitable process for production	Injection Molding, Compression Molding, Casting Molding, CNC Machining, Metal Stamping, 3D Printing
			
5	6	7	8
Build a Prototype	Review	Mass Production	Delivery
Quick prototype exactly same as drawings or samples	Review & approve samples for mass production	Automatic production line accelerates production and guarantees quality	We can provide more options for additional assembly and logistics, and ensure a fast delivery within 5 working days

We have made more than 10,000 kinds of plastic parts, including but not limited to gears, pulleys, plastic bushings, etc. The specific parts are divided into two categories, pure plastic parts and plastic plus metal parts.

Custom Plastic & Rubber & Metal Parts

One-Stop Service from Rapid Prototype to Mass Production and Parts Assembly

Contact Us:

Zhongde is committed to providing customers with high-quality and low-cost customized products. Up to now, we have customized 1 million parts and molds for customers from more than 50 countries around the world. We have introduced more than 500 sets machines to produce plastic components and parts, so that we can offer on-demand production according to customers' requirements. If you have customization requirements, please provide the corresponding 2D or 3D design drawings, and we will provide a quick quotation within 24 hours.
