

# Custom TPE Parts

## Features:

Cost-effective and high quality  
Structure from simple to complex  
High elasticity and long lifetime

## Specification:

Maximum Size	1500*1500*1000mm
Color	White, Black, Transparent, or according to Pantone No.
Tolerance	±0.05mm
Surface Finishing	Glossy, Semi-gloss, Matte, Textured finish, As-machined
Additives	UV absorbers, Flame retardants, Plasticizers, Colorants, Carbon fibers, Glass fibers
Logo	Debossed, Embossed, Printing
Drawing Format	2D Drawing: PDF/JPG/PNG 3D Drawing: STEP/STP/IGS/DXF/DWG
Product Volume	50,000,000 Pcs/Month

## Types of Custom Rubber Parts:

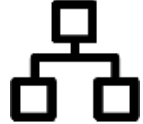

### TPE parts

Zhongde has produce a board range of custom rubber parts: rubber grommet, gasket, plugs, etc. Including various material such as nr, epdm, silicone, fkm, nbr and many other rubber materials.

## Custom Process:

			
1	2	3	4
<b>2D &amp; 3D Drawing</b>	<b>Get a Quote</b>	<b>Drawing Analysis</b>	<b>Process</b>
JGP, STP PDF, STEP DWG, IGS DXF, IGES	Manual quotation within 24 hours	Our engineering experts will analysis your drawing and choose suitable process for production	Injection Molding, Compression Molding, Casting Molding, CNC Machining, Metal Stamping, 3D Printing

<b>Build a Prototype</b>	<b>Review</b>	<b>Mass Production</b>	<b>Delivery</b>
Quick prototype exactly same as drawings or samples	Review & approve samples for mass production	Automatic production line accelerates production and guarantees quality	We can provide more options for additional assembly and logistics, and ensure a fast delivery within 5 working days

Zhongde can produce a variety of thermoplastic elastomer materials. This material not only has the excellent properties of traditional vulcanized rubber, such as high elasticity, aging resistance, and oil resistance, but also has the characteristics of convenient processing and wide processing methods for ordinary plastics. Thermoplastic elastomer has the dual properties and broad characteristics of rubber and plastic, and is widely used in various fields such as commodity and industry.

## Custom Plastic & Rubber & Metal Parts

One-Stop Service from Rapid Prototype to Mass Production and Parts Assembly

# Contact Us:

Zhongde is committed to providing customers with high-quality and low-cost customized products. Up to now, we have customized 1 million parts and molds for customers from more than 50 countries around the world. We have introduced more than 500 sets machines to produce plastic components and parts, so that we can offer on-demand production according to customers' requirements. If you have customization requirements, please provide the corresponding 2D or 3D design drawings, and we will provide a quick quotation within 24 hours.
