Custom
Rubber Parts

With a range of rubber compounds, molding processes, and composite structures, we produce custom rubber parts for sealing, cushioning, protection, and other functional applications. Our team supports material selection, tooling, molding, bonding, and assembly based on your drawings, samples, or specifications.

ZHONGDE
Better Quality, Faster Delivery

Customized to Your Part Requirements

All products shown in this catalog are custom-made to order, not stocked items. We manufacture each part based on your drawings, 3D files, samples, materials, dimensions, and other specific requirements.

Rubber Suction Cup

Materials: Silicone, NBR, EPDM, NR, SBR, Neoprene

Colors: Black, white, red, blue, green, yellow, gray, orange

Applications: Vacuum holding, lifting, mounting, handling & fixtures

Rubber Grommet

Materials: EPDM, NBR, Silicone, Neoprene, NR, SBR, FKM

Colors: Black, white, gray, red, blue, green, yellow, brown, orange

Applications: Cable protection, wire routing, sealing, vibration isolation & equipment

Rubber Mount

Materials: NBR, EPDM, NR, Neoprene, Silicone, SBR, FKM

Colors: Black, gray, white, red, blue, green, yellow

Applications: Vibration isolation, shock absorption, equipment mounting & machinery

Rubber Gasket

Materials: EPDM, NBR, Silicone, Neoprene, FKM, NR, SBR, IIR

Colors: Black, blue, red, orange, green, grey, brown

Applications: Sealing, piping, flanges, automotive & industrial equipment

Rubber Stopper

Materials: Silicone, EPDM, NBR, Neoprene, NR, SBR, FKM

Colors: Red, black, blue, orange, grey, brown, green

Application: Sealing, plugging, cushioning, positioning & protection

Rubber Bellow

Materials: EPDM, NBR, Silicone, Neoprene, NR, SBR, FKM

Colors: Black, green, red, yellow, brown, orange, blue

Application: Dust Protection, Shaft Protection, Flexible Connections & Vibration Isolation

Rubber Bushing

Materials: NBR, EPDM, NR, Neoprene, Silicone, SBR, FKM

Colors: Black, red, green, yellow, purple, orange, blue

Application: Vibration isolation, shock absorption, suspension systems & machinery

Rubber Roller

Materials: NBR, EPDM, Silicone, Neoprene, NR, SBR, FKM

Colors: White, black, red, yellow, green, blue, brown

Applications: Conveyors, printing, material handling, machinery & equipment

Rubber Cap

Materials: Silicone, EPDM, NBR, Neoprene, NR, SBR, FKM

Colors: Black, white, red, green, yellow, pink, brown

Application: Dust protection, sealing, tube & pipe ends, fasteners & components

Rubber Grip

Materials: Silicone, NBR, EPDM, Neoprene, NR, SBR

Colors: Green, red, yellow, black, blue, pink, purple

Applications: Hand tools, handles, knobs, sports equipment & consumer products

More Custom Parts Are Available

The parts and customization options shown here are only a selection of what we can produce. Contact Zhongde to discuss your specific part, material, color, and production requirements.
